No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                  Sequence 10,

GENERAL INFORMATION:
TITLE OF INVENTION: SID nucleic acids and pol
TITLE OF INVENTION: Dathogenic strain of the
TITLE OF INVENTION: pathogenic strain of the
TITLE OF INVENTION: applications thereof
TITLE REFERENCE: B4809A - JAZ
CURRENT FILING DATE: 2001-08-02
PRIOR APPLICATION NUMBER: EP 00402225.7
PRIOR APPLICATION NUMBER: EP 00402225.7
PRIOR FILING DATE: 2000-08-03
NUMBER OF SEQ ID NOS: 156
SOFTWARE: Patentin Ver. 2.1
SCOTUD NO 107
LENGTH: 300
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       TYPE: PRT
ORGANISM: Hepatitis C virus
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          ORGANISM: hepatitis C virus
                                                                                                                                                                                         US-09-921-397-107

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Sequence 110, Application US/09921397

Patent No. US20020151484A1

GENERAL INFORMATION:
APPLICANT: HYBRIGENICS
TITLE OF INVENTION: SID nucleic acids and polypeptides selected from a TITLE OF INVENTION: pathogenic strain of the hepatitis C virus and TITLE OF INVENTION: applications thereof
FILE REFERENCE: B4809A - JAZ
CURRENT APPLICATION NUMBER: US/09/921,397

CURRENT FILING DATE: 2001-08-02

PRIOR FILING DATE: 2000-08-03

PRIOR FILING DATE: 2000-08-03
                                                                                                                                                                                                                                                                                                                                                                                                                       Gaps
